

MTR-ALP3G

Mounting rack for ALP-3G-water cooled

The MTR Mounting Rack is designed to fix up to 4 units of the water cooled ALP-3G's in e.g. electrical cabinets.

The modern industrial design harmonizes suitability and space-saving cabinet mounting of our newest electronic ballast generation.

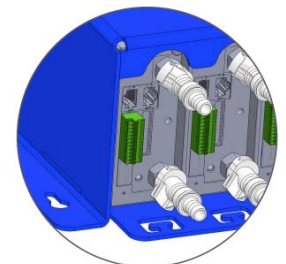

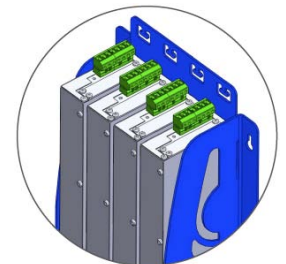

The integrated rails helps to save mounting time and guarantees a stable fixing of the ALP-3G units.

The integrated cable rails provide a industrial fixing and clear positioning of cables to each ballast. This allows an easy dismounting for servicing in the cabinet.

Properties:

- Robust steel design, powder coated
- One rack allows fixing 1 to 4 ALP-3G water cooled in an electrical cabinet
- Positioning and fixing of each single unit is provided by guiding blades
- Integrated cable fixing points to position and fix cables by using cable straps

Technical data:

MTR-ALP3G	
Art. No.	A002188
Material	steel
Coating	powder coating
Color	RAL 5010, gentian violet
Fixing points, horizontal	241 mm
Fixing points, vertical	425 mm
Fixation of the MTR rack	by 4 pcs. screws M6 x 15 mm
Required space (W x H x D)	271 x 852 x 132 mm
Weight	approx. 0,75 kg
